Gessler went on to say that "an able quartet of soloists was made up of Dorothy Byron, soprano; Bernice Sprague, alto; Leonard Weeks, tenor, and James Duyn, baritone, firmly supported by Caroline Unruh at the piano and Elizabeth Woods at the organ."

The Philharmonic Chorus and soloists are now in final rehearsals for a repeat performance of the dramatic oratorio, "Elijah," to be given Sunday, June 5 at 7:30 p.m. in Zion Lutheran Church, 5201 Park Blvd., Oakland. ## COUNCIL ACCEPTS REZONING OPINION

Albany City Council, meeting on Tuesday night this week because of the holiday, cleared up several items that have been hanging fire for several weeks, including the legality of the rezoning of Lots 1 and 2, in Block 3, Cerrito Hill.

These lots, originally in Zone One Residential, had been zoned to Zone Two several years ago at the request of the owner, who at the time planned the erection of a duplex. The owner's plans never were carried out, and the property has since changed hands several times.

Now the present owner is planning to build a fourplex, and a question arose whether or not this could be done in view of the fact that the rezoning had been accomplished with a "duplex" named in the rezoning application.

This problem was passed up to City Attorney Robert J. Foley at the Council meeting on May 23. At Tuesday night's meeting Foley's detailed opinion was read, in which he said in effect that the rezoning to Second Residential placed the property in that category and permitted erection of a multiple dwelling, and therefore a duplex, a triplex or a fourplex would qualify.

Mrs. Zalm objected, claiming the residents of the area who had approved a duplex originally, were misled in the original rezoning, and that the property should be rezoned back to First Residential. After some heated argument Councilman Blank declared that to ban a fourplex at this time would be "confiscatory," and the City Attorney's ruling was allowed to stand.

Other action by the Council included:

Complaint from the Regional Water Pollution Control Board regarding sewage and industrial waste discharges, was referred to City Engineer Carter for study, and a report to the Council within two weeks.

Installation of a fire plug adjacent to Buchanan Street and the El Cerrito overpass, was held over until the next budget session. Fire Chief Fred Pimental agreed to have figures on the cost ready for presentation at that time.

Request of City Engineer Carter for appointment of a temporary janitor for City Hall, was approved.

Request from the City Engineer that the City advertise for bids on approximately 24,000 gallons of gasoline for the 1955-56 fiscal year, was approved.

Memorandum of agreement for maintenance of city streets during the coming year, was approved.

Request of Fire Chief Fred Pimental that he be given permission to attend the Fire Chiefs' convention in Sacramento, June 3-5, and that he be given the sum of \$50 for expenses, was approved. Mrs. Zalm abstained from voting.

Placing of stop signs at the southeast and northwest corners of the Spokane Avenue-Brighton Avenue intersection, was approved.

### S.P. Asks Cut in Diesel Service To Sacramento

For every two dollars a passenger on Southern Pacific's mid-day trains between Sacramento and San Francisco spends on his ticket, S.P. has to kick in a dollar more to keep the trains going.

With this statement the railroad applied on May 27 for authority from the California Public Utilities Commission in San Francisco to discontinue the pair of losing trains.

They are S.P.'s Trains 229 and 246, presently operating with a single, self-propelled diesel car which leaves Sacramento late in the morning, reaches Oakland Pier in the afternoon and returns to Sacramento in mid-afternoon.

This mid-day traffic is so light, the railroad said in its application, that during the past year the new service averaged only 52 passengers per trip—little more than half the capacity of the car.

Claude E. Peterson, S.P. vice president in charge of passenger traffic, commented today that "Our operating losses in providing this poorly patronized service in the past year amounted to one dollar on every two dollars collected."

S.P. noted in its application that

### Library is Given Subscription to 'Unesco Courier'

In order to provide a richer opportunity for the high school students and citizens interested in a better understanding and interpretation of the problems of world peace, the Albany Chapter of the AAUN has presented the Albany City Public Library with a subscription for "Unesco Courier," an up to the minute magazine dealing with the ramifications of the vast number of problems, projects, operations and activities of the UN. It is the desire of the local chapter that this gesture will assist Albany in the celebration of the "history in the making" commemorative UN meeting. "That the tenth anniversary meeting in the San Francisco Opera House, June 20 to 26, will be vital was expressed by the director of the AAUN, Clark Fichtelberger in his address in San Francisco on May 25, "A Decade of U.N. History," which was attended by Judge and Mrs. Louis J. Hardie, Dr. Florence Harris, Mrs. Charles Keppel, and Mrs. Alfred Mulera of the local chapter.

In the presence of a large and enthusiastic audience, May 24 in the Cornell School library with Judge Louis J. Hardie presiding significant actions were approved, notably, the adoption of new by-laws; the undertaking of the UNESCO project of contributing carpentry tools to a youth-center and school in Israel; and the endorsement of the UN Week program plans as outlined by Dr. Florence Harris.

Presented with corsages were the honored guests — Mrs. John Amos Jr., president of the Albany - Berkeley Council of PTA, Mrs. Robert Kleinhammer, junior past president of the Council; Mrs. Leslie Burman, president - elect of Albany High PTA, and Mrs. Robert Felton, president of Cornell PTA.

For further information regarding other East Bay UN celebration functions, interested persons may contact Dr. Florence Harris at LAnd. 5-7729 or Mrs. Alfred Mulera, publicity committee, at LAnd. 6-5977.

## Objectives of United Crusade Told in Detail

The United Bay Area Crusade (UBAC) is a unified operation of five separate United Crusades in the Bay Area, of which the East Bay United Crusade is one. UBAC was formed to eliminate the problem confronting the commuter, as to how to apportion his annual giving between the city in which he works and the community in which he lives, and where his family benefits from the services. UBAC will make it simpler to give everything in one place, preferably the place of employment. Donors are assured that their home communities will receive a share of the total collected in proportion to each community's needs for service.

The other notable features of UBAC are briefly the sharing by all communities in the five counties in corporate contributions; the pooling of staff; a concerted public relations program through all media; economies in mass purchasing of supplies; and the elimination of conflicting time schedules and competitive or duplicate solicitation of firms and individuals alike.

In short, the more UBAC raises, the more there will be for distribution among the affiliated causes and services to help people—all people, to a more meaningful daily life.

ies on the consecutive study of the Letter to the Ephesians.

John Knutson is the first of the youth to participate in the revised instructional program at Christ Lutheran Church, in which children are received for intensive doctrinal and biblical studies preparatory to adult membership only after they have reached the ninth grade. Traditional practice has centered the "confirmation instruction" at the seventh and eighth grade levels. But following an intensive study by the congregation on the factors of adolescent psychology, Christ Church has pioneered the new program designed to carry the youth over the disturbing change from junior to senior high school with continuous pastoral and religious

care through the medium of the two-year instruction period. Adults who have completed a comparable instruction class in "Christian Basics" will also be received into membership at this service.

Supper will convene at 9:45 a.m. under the direction of Mrs. Bernice Geach and Charles Bradfield.

**CHRISTIAN SCIENCE**

The way to healthier, happier living through spiritual understanding of God as the only real creative power will be brought out at Christian Science services this Sunday.

The Lesson - Sermon entitled "God the Only Cause and Creator" includes the account of Christ Jesus' healing of the centurion's servant who was "sick of the palsy, grievously tormented" (Matt. 8).

Among the correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is the following (231:30): "Man, governed by his Maker, having no other Mind, — planted on the Evangelist's statement that 'all things were made by Him (the Word of God); and without Him was not anything made that was made,' — can triumph over sin, sickness and death."

The Golden Text is from Acts (4:24): "Lord, thou art God, which hast made heaven, and earth, and the sea, and all that in them is."

## Southern Pacific explains why it wishes to discontinue a little-used midday train between Sacramento and San Francisco

Five years ago, when we requested authority from the California Public Utilities Commission to discontinue a little-used, midday steam train each way between Sacramento and San Francisco, our request was denied.

Instead, the Commission directed us to substitute for these two trains a new rail-diesel car. In the Commission's opinion, public convenience required the service to be continued, even though it was conceded at the time that our annual out-of-pocket loss on the new rail-diesel car operation would probably be about \$19,000. The courts refused to set aside the Commission's order.

We did as we were directed.

The new rail-diesel car cost \$167,000. It was streamlined and air-conditioned. It was of stainless steel, spotless and shining, and tops in comfort. We placed it in service on the fastest schedule we could maintain. We promoted it with advertising. But it has not proved popular with the public.

To the contrary, for the past year the new service averaged only 52 passengers per trip—a little more than half the capacity of the car and only a few more passengers per trip than the former steam trains carried.

As a result, our out-of-pocket loss on the service has averaged 78 cents for each passenger carried. Not counting anything for interest on our investment in the new car, share of overhead and fixed charges, or for the advertising support provided, our loss has exceeded \$30,000 per year—more than 50% above the Commission's estimate.

The truth of the matter is that the public neither needs nor will support this service.

### Other service plentiful

There is a fine, high-speed, super highway between Sacramento and San Francisco, making the trip an easy drive. In addition, the following alternate means of public transportation are available:

**BY BUS:** 41 daily schedules westbound, 39 eastbound.

**BY AIR:** 11 daily westbound flights, 10 eastbound.

**BY RAIL:** 11 daily S.P. trains each way between Sacramento and San Francisco or between San Francisco and intermediate points (Davis or Martinez), including 6 trains each way the entire distance, Sacramento-San Francisco.

Western Pacific has daily train service each way between Sacramento and San Francisco.

In the light of the above, we do not believe that argument can be seriously advanced that public necessity or convenience requires continuation of our midday rail-diesel car service. We are, accordingly, requesting the Public Utilities Commission to permit us to discontinue it.

It seems to us that we should be permitted to direct our efforts and money toward providing the services which the public, by its patronage, has indicated it wants and will use, rather than services which it doesn't want and won't use.

## Marin Parent-Teacher Association Plans Innovations in Fall Program

Some innovations in programming, designed to encourage attendance of new and more mothers at the monthly meetings of Marin Parent-Teacher Association, will be made this fall, according to plans made at the program meeting held at Marin School on May 27, at which Mrs. Eugene Blank, chairman, outlined a tentative program for discussion and approval.

These will include a background of soft music to be used at every PTA meeting; the executive board acting as hostesses in conjunction with designated room mothers at every meeting, greeting particularly the new members who attend; and nameplates for all present.

Among the varied list of topics scheduled for the year, under the National Congress theme "Teamwork Does It," are: Two visits to the classrooms by the membership, both primary and elementary, for observation of the children at their studies; a Thanksgiving skit by the school children, and at the same meeting, spiritual messages from three faiths; an all-music Christmas program to include the orchestra and glee clubs.

Most of the year's meetings will be held in the cafeteria, to culminate with coffee and cake, thus providing a friendly atmosphere of relaxation.

At the program - planning meeting Mrs. Blank announced that the 1954-55 program booklet, prepared by Mrs. L. Thomas Rossi, outgoing program chairman, had received official recognition and praise at the 1955 convention of the California Congress of Parents and Teachers.

Members of the program committee for next year, in addition to the chairman, are Mrs. Leslie S. Stanley, president of Marin PTA; Mrs. A. R. Rinn, health chairman; Mrs. L. Thomas Rossi, social dancing chairman; Mrs. C. W. Nottingham, membership chairman; Mrs. W. Z. Heywood, music chairman, and Mrs. Will H. Betten, publicity chairman.
